

## Miscellaneous Accessories

- Reliable quality
- Easy to connect
- Various cable lengths

### Introduction

Leadshine offers miscellaneous industrial quality accessories such as communication cables, USB to RS232 converters, connectors, etc, which has been tested and confirmed working fine with Leadshine products.

### Available Products

Part Number	Description
1.4.4-0609505-B3	1.2-meter (3.9-foot) Rs232 cable for tuning Leadshine digital drives.
1.4.4-0409505-B3	1.2-meter (3.9-foot) Rs232 cable for tuning microsize digital drives with ProTuner
1.4.4-0905517-E31	1.5-meter (4.9-foot) Rs232 cable for tuning IES-23 and IST-23 with ProTuner.
1.4.4-0905505-831	1.5-meter (4.9-foot) Rs232 cable for tuning IES-17 and IST-17 with ProTuner.
USBtoRS232	1.8-meter (6-foot) USB to Rs232 Db9 cable. Fully tested to work with Leadshine digital drives.
1.4.0-4422200-17	44-pin control signal connector for the ES-DH and EL5-D series drives.

## 1.4.4-0609505-B3

### Description

1.2-meter (3.9-foot) RS232 cable for tuning the DM, EM, ACS, DCS, ES-D series digital stepper drives, servo drives and easy servo drives (except microsize drives such as EM402, DM422, DM422C, DCS303 and ACS306).

## 1.4.4-0409505-B3

### Description

1.2-meter (3.9-foot) RS232 cable for tuning the EM402, DM422, DM422C, DCS303 and ACS306 drives with ProTuner.

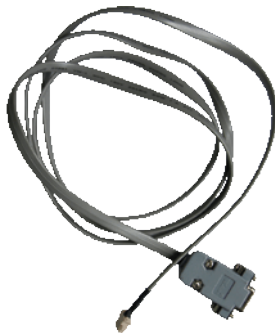

## 1.4.4-0905517-E31

### Description

1.5-meter (4.9-foot) RS232 cable for tuning iES-23 and iST-23 with ProTuner.

## 1.4.4-0905505-831

### Description

1.5-meter (4.9-foot) RS232 cable for tuning iES-17 and iST-17 with ProTuner.

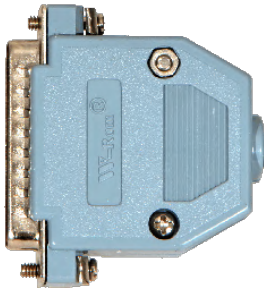

## USBTORS232

### Description

1.8-meter (6-foot) USB to RS232 DB9 cable. Fully tested to work with Leadshine digital stepper/servo drives.

## 1.4.0-4422200-17

### Description

44-pin control signal connector for the ES-DH series easy servo drives or EL5-D series servo drives.
